

Management of Perinatal Emergencies: A Patient Safety Webinar Series

Presented by The Ohio Pregnancy Associated Mortality Review and
The Ohio State University Clinical Skills Education and Assessment Center

August 31st:

Understanding and Treating the Bleeding Parturient: Strategies for Success

This webinar will focus on etiologies and treatment strategies for obstetric hemorrhage including data from the anesthesiology closed claims database. It will also feature a discussion on the development and implementation of an obstetric massive transfusion protocol.

OBJECTIVES

1. Apply data from the Anesthesiology Closed Claims Database to better understand the nature of obstetric hemorrhage.
2. Develop an evident-based obstetric massive transfusion protocol.
3. Anticipate pitfalls in the implementation of an obstetric massive transfusion protocol, with a focus on resource limitations.

Kasey Fiorini, MD
Department of Anesthesiology
The Ohio State University
College of Medicine
